“The most important political office is that of the private citizen.”

- Louis Brandeis

If you have a disability, a chronic illness, or a pre-existing condition, as it’s referred to these days, you do not have the luxury of sitting back silently as your legislators make decisions about YOUR life.

There has been a lot of very serious discussion on reforming our nation’s social safety net…this includes Social Security, Medicaid, Medicare, Housing Vouchers, and the Supplemental Nutrition Assistance Program (SNAP), among many others. **If you rely on any of these programs, the upcoming Midterm election is indeed about your very existence.**

What would you do if reforms made it more difficult to live in a safe, affordable home…or to put a healthy meal on the table…or to hire a home health aide…or to access public transportation…or to get the medication you need to survive?

As a disability advocate, I know these things are not easy as it is. Have you thought about what you would do if any one of these programs wasn’t there?

Have you talked to your Senators and Reps about what these programs mean to you? Do you even know where they stand on these issues?
Never Surrender. Vote. (continued from page 1)

Not too long ago, the ONLY place for a person with a disability was an institution. Jobs? Forget about it! The hard work of advocates and legislators have made living and working in the community possible.

Thanks to publicly funded social service programs, people with disabilities are contributing, now, more than ever before! We have made great strides over the decades.

We must not step backwards, but keep our eyes on a future that values ALL people, and invests in their potential, rather than seeing them as a burden.

If you rely on federally and locally funded programs to help you live and work in the community, you need to pay attention. You need to understand what is at stake. You need to vote!

On Tuesday, November 6, 2018 you will have the privilege of choosing YOUR local and federal officials (most notably the United States House of Representatives). Do not squander this opportunity. You have just under two months to educate yourself on the issues and candidates.

The future is ours, but only if we work for it!

Are you ready? If not, here are some resources to help you vote with confidence. It’s time to get to work!

Project Vote Smart will help you find the candidates that best match your hope for our country. You can read their bio, review their legislative voting record, learn about their position on the issues, review their ratings by various political organizations, view their speeches, and see who is funding their campaign.

The American Association of People with Disabilities via their REV UP campaign offers an amazing collection of information regarding politics and disability issues specifically. Their 2018 Election resource in particular provides a good understanding of what is at stake.

Do you know how to separate fact from fiction in news and politics? The truth is, many of us don’t. We often unwittingly use biased news to confirm our own biases. The News Literacy Project is here to help us become more aware of bias in the media and in ourselves.
