Spring 2017

Volume 14, Edition 1

NHU Outlook Newsletter is published quarterly by New Horizons Un-Limited Inc. (NHU), a 501(c)3 tax exempt non-profit organization based in Milwaukee with a mission to make information and life experiences more accessible to **people with lifelong disabilities**, their families and caregivers. Our programs are made possible through the generous contributions of our community partners, member and donor families and many in-kind donors. To contribute to New Horizons Un-Limited, see page 5. To learn more about NHU, visit our website at www.new-horizons.org or send us an e-mail at horizons@new-horizons.org

I believe that life is a journey, often difficult and sometimes incredibly cruel, but we are well equipped for it if only we tap into our talents and gifts and allow them to blossom.

New Horizons Un-Limited Supporting Personal Journeys Toward a Brighter Future!

NHU cares enough NOW, to ensure our collective futures by offering the opportunity to our community members with disabilities the information, tools and experiences for lifelong learning. We believe that fulfillment can be achieved in many different ways and at every stage of life. We encourage volunteering and teaching others to enable people to be confident, contributing citizens. Our communities' citizens accept the challenge to invest in themselves!

NHU holds a spotlight on our efforts to open gateways to full participation and opportunity with another personal journey from our programs. Learn what your contributions to NHU have meant to affect change toward a brighter future for individuals. Help NHU reach more individuals this year by giving to NHU and participating in our fundraisers.

Computer Grant and Training Program – Arlene's Journey

In 2007 we met Arlene whose son was in our skills program and she offered to volunteer for NHU. She herself had a disability and received her first Computer Grant from NHU a few months later. She was very interested in obtaining more computer training and to learn office skills, so she became a volunteer and a very committed, dependable one. Not long after she was beginning to make progress toward the idea of seeking employment, she faced breast cancer. Obviously she concentrated on her health, and we tried to assist with hope and encouragement.

Over time she was successful and when she survived cancer, she dove right back into the challenges of life, with the struggles of living with disability and dealing with family and health issues. Through thick and thin, when she could, she returned to volunteer, contributing her time and talents and we continued to support her training and personal computer needs through these many years.

Arlene has assisted with various administrative, fundraising and data entry projects, and accessible resources research. She is an avid crocheter/knitter and has often donated items to our fundraising events. During all this she has lived independently and is a vital part of her family. Arlene has been an integral part of the NHU community too, encouraging new volunteers and sharing solutions on disability issues. "I love volunteering for NHU, it stretches my learning and gives me the opportunity to really like what I am doing."

(Continue to page 2.)

(Continued from page 1.)

Recently we visited with Arlene about how having a computer has been beneficial to her. The computer has allowed her to research assistance for her one child who has a disability, as well as, assist another in finding job coaching and work. "My computer also allows me to keep close to my oldest child who teaches in Seoul, Korea and other family and friends, thru email and Facebook. I am also able to look up crochet/knit patterns on the Internet which allows me to create gifts for family and friends and an occasional commission, but it has also given me more volunteer opportunities to knit hats, prayer shawls, and newborn blankets to donate to others through the United Methodist Church of Whitefish Bay and Columbia St. Mary's Hospital."

NHU offered Arlene office skills training and granted a computer, a tool to assist her to overcome barriers and grant her opportunities to participate in life. By investing in herself and giving to others, she has found a way to help herself with her disability and be a contributing member of churches, a hospital and organizations in her community. We are proud of her accomplishments and privileged to have Arlene working alongside us.

This year as you decide on your giving, remember NHU needs your help to reach more people! Remember what your continued support has offered and continues to offer people like Arlene, not just the opportunity to overcome barriers to all that life can offer, but also assist them with the tools to face their disability armed with self-esteem and hope!

Please Join NHU in our Grassroots Effort to Care Enough NOW Ensuring Brighter Futures!

Help NHU provide more of our community members with disabilities the tools, training and encouragement they need to move forward in their lives!

Important Advocacy Alert! – Medicaid Block Grants – Please Contact Your Legislators!

Congress is proposing Medicaid Block Grants to cut a trillion dollars from Federal support and put that burden on the states, who are trying to balance their own budgets. If you, a family member or a friend uses a program funded by Medicaid, this may affect you and your future. Ask your legislator, what will replace this funding for essential care services for those that rely on it for their very survival. The unintended consequence of no plan will disregard people with disabilities' contributions to society by placing them in nursing homes which are an expensive solution. Nursing homes were closed years ago, so now add the additional expense of building new nursing homes which would fall to the states.

We all want to see efficiency in budgets, but if you live in a state like Wisconsin, which has an efficient Long Term Care System that allows people with disabilities to **live at home and work in their own communities**, then please contact your legislators. The alternative is the more expensive nursing home care model which also disregards people's potential in life. Let them know your story and how a program funded by Medicaid is important to you and your family!
